

# Case Study

## Merseycare - Rowan View

### Project Overview

We were selected by our client's KIER to deliver the Infill SFS Framing & Carrier Board element of this major new Medium Secure Health Facility (MSU). The new unit is adjacent to Mersey Care's High Secure Services at the Trust's Maghull Site.

THE ground-breaking facility has 123 beds located over eight wards, specialist learning disability and mental health wards, a social hub, café, therapy rooms, multi-faith room, sports hall, gym, music rooms, skills for life room, IT suite, bank and physical health suite.
